

COVID 19 EXPOSURE
Staff & Students
Office of Climate & Wellness

UNVACCINATED

Quarantine is dependent on testing as described below.

NOT TESTED

1. Quarantine 10 days minimum (14 days preferred)
2. Monitor symptoms for 14 days

**TESTED 5-7 days
from last exposure**

NEGATIVE

1. Complete 7 days of quarantine after exposure
2. Monitor symptoms for 14 days

POSITIVE

Follow Covid-19
Protocols-
**Follow guidance
from medical facility**

VACCINATED

1. Provide proof of vaccination
2. No quarantine required
3. **Recommended testing 3-5 days**
after last exposure

NEGATIVE

1. **CLEARED**
2. Monitor symptoms for 14 days

POSITIVE

Follow Covid-19
Protocols-
**Follow guidance
from medical facility**

If symptoms develop after quarantine ends and you're still within the monitoring period, get retested.

This guidance is to assist with decision-making for Covid-19 exposure (close contact with positive case).
