

Corrective Action Plan(CAP) Update

William M. Merritt, IV
CAP Administrator

Objectives

Review progress towards clearing standards in the Corrective Action Plan (CAP)

Provide updates on significant changes in the revised Corrective Action Plan

Current Progress In Clearing Standards

- As of today, JPSD has cleared **18 total standards** and sub-standards.
- The District is currently working to clear the remaining **13** Process Standards and Accreditation Policy 2.1.

Significant Updates to the Corrective Action Plan

- Implementation timelines have changed for some standards.
- The current organization structure is reflected within relevant standards. Positions have been changed that align to the current organization structure.
- For Standards 17.4 (Special Education) and 17.6 (Federal Programs), findings were removed based on follow-up/monitoring visits.

Significant Updates to the Corrective Action Plan

- For Standards 17.1 (kindergarten), Standard 17.2 (Pre-kindergarten), Standard 20.1 (Implementation of the Instructional Management System, and 20.2 (Multi-Tiered Systems of Support), some modifications were made to the strategies.
- If the implementation timeline has passed, it indicates that the strategy for that standard has been addressed.

Standards Under Review

- Standard 1.1, 1.2, and 1.3 (Governance)
- Standard 11 (Dropout Prevention)
- Standard 26 (Basic Secondary Curriculum)
- Standard 30 (Facilities: Provine, Van Winkle, and Wilkins)
