

OUTSIDE OR DUAL EMPLOYMENT

When a person is employed by the Jackson Public School District on a regular, full time basis, the board considers full time employment. These job responsibilities shall take precedence over any type of outside work.

The board believes that employment in addition to contractual responsibilities should not be undertaken if it:

Prevents the employee from performing responsibilities in an effective manner, and/or

Raises any question of the conflict of interest should the employee's position in the district give him/her access to information or other advantage useful to an outside employer.
