PERSONNEL QUALIFICATIONS, CERTIFICATES AND DUTIES

This school district is committed to high levels of academic achievement for all students, and thus seeks to employ highly qualified teachers in the elementary, middle, and high schools. A professional employee shall hold a valid Mississippi certificate appropriate to the position held at the time of employment and shall execute a written contract with the school district. The certificate shall be valid at the time of execution of the contract. If the certificate expires during the life of such contract and is not renewed, the contract shall be null and void until the certification is renewed.

Any employee allowing a certificate to expire must have it reinstated prior to the issuance of the contract. An expired certificate is a ground for dismissal.
