

CURRICULUM DEVELOPMENT PLANNING

It shall be the policy of this Board of Trustees to ascertain the extent to which students master specific learner objectives and to use such information in instructional planning and decision making. Each teacher shall use formative and summative tests which are congruent with instructional activities to evaluate the level to which specified learner objectives have been attained by students. Test results shall be accurately reported to students and parents in a timely manner.

The Board of Trustees recognizes the need to foster a sense of community and collaboration within schools and it recognizes the need to provide the opportunity for shared discussions among professional staff and for shared work through positive, open, cooperative relationships.

PRE-ADVANCED PLACEMENT COURSES

In order to ensure that each student has a sufficient education for success after high school and that all students have equal access to a substantive and rigorous curriculum that is designed to challenge their minds and enhance their knowledge skill, school districts shall offer pre-advanced placement courses to prepare students for advanced placement course work.

Beginning with the 2007-2008 school year, all school districts must offer at least one (1) advanced placement course in each of the four (4) core areas of math, English, science and social studies, for a total offering of no less than four (4) advanced placement courses. The use of the state's on-line Advanced Placement Instructional Program is an appropriate alternative for the delivery of advanced placement courses.

Any public high school offering the International Baccalaureate Diploma Program is exempt from the requirements of this subsection. However, the school may participate in teacher training and program funding on the same basis as any high school offering advanced placement courses. The superintendent and administration shall develop rules necessary for the implementation of advanced placement courses. Miss. Code Ann. § 37-15-39

The superintendent will ensure that any programs for limited-English proficient students have a primary goal of mainstreaming those students into the regular classrooms, and that those programs emphasize English language instruction.
