

ATHLETICS

The board believes individual students will grow physically and mentally through their experience in self-discipline and their contribution to team effort made possible through competitive interscholastic and intramural team and individual sports activities.

Those teachers having direct responsibility for the conduct of the athletic program of the school are required to conform in all ways to the general education program as established by the board and administration, including such matters as scheduled, financial expenditures, relationships with other schools, and health and safety regulations.

No students may start practice for any athletic team until they have been examined and pronounced physically fit by a medical doctor. Written consent from the parents or legal guardian is required prior to practice as well. (JDD)

District participation in interscholastic athletics shall be subject to approval by the board. This shall include approval of membership in any leagues, associations, or conferences, of rules for student participation, and of annual sports schedules.
