

GRADING SYSTEM

The basic objective of a grading system is to communicate to parents a periodic evaluation summarizing significant factors of the student's adjustment in the total education program. The cumulative purpose of the grading system is to supply the parent with a composite statement of the educational process in a specified period of time for the student in selected areas of learning.

The grading system is a method of communication about the student's intellectual, social, and emotional development. The grading system is based upon student achievement and performance, bearing in mind that any system incorporates both subjective and objective considerations in student evaluation.

The following numerical values shall be used in determining letter grades for all Jackson Public School District scholars:

A (Excellent) 100-90

B (Above Average) 89-80

C (Average) 79-70

D (Below Average) 69-60

F (Failure) 59 and below
