

SCHOLAR CONDUCT

Section I: PURPOSE

The Jackson Public School District Board of Trustees firmly believes that a positive school culture promotes equal educational opportunity and establishes the framework for a safe learning environment. Scholars have a right to a public education, but with this right comes personal responsibility. Education is a process that requires a safe and orderly environment, and scholars have a responsibility to know and to respect the rules and regulations of the school. Scholars are responsible for conducting themselves in an appropriate manner at all times. Scholars who obstruct any teaching, administrative, or extracurricular activity whether in school, on the playground, at a school-related event or activity, or en route to or from school shall be subject to such disciplinary procedures as set forth by the Superintendent.

Parents, legal guardians, or custodians of a compulsory school-age scholar enrolled in a public school in the district shall be responsible financially for his or her minor child's destructive acts against school property or persons.

A parent, guardian, or custodian of a compulsory school age scholar may be requested to appear at school by an appropriate school official for a conference regarding acts of the scholar.

Every teacher is authorized to hold every scholar to a strict accountability for an orderly environment. Every scholar is strictly accountable for any disorderly conduct in school or on the playground at a school-related event or activity, or en route to or from school.

For a proper learning environment to be maintained, each school must implement Positive Behavioral Interventions and Supports (PBIS) strategies to define, teach, model, and support appropriate scholar behaviors to maintain positive school environments. Administrators and teachers will make certain that all scholars understand the conduct appropriate for attendance at school and its sponsored activities as well as in the classroom. The Board believes that it is the responsibility of all scholars, teachers, and administrators to see that such a positive learning environment is achieved.

The District will provide a Code of Scholar Conduct and Handbook to every scholar which shall include the acceptable behavior for scholars and the scholar discipline code. It will provide specific information regarding the District's expectations for scholars as well as interventions and dispositions for violations of policies will be explicitly set forth in this document. The Code of Student Conduct and Handbook will describe the expectations for all scholars' consistent and timely attendance, respect for people and property, appropriate dress,

technology usage, scholar activities, scholar records, and the rights to appeal, including grievance procedures.

Section II: DISCIPLINARY OBJECTIVES

The basic objectives of discipline within the school and in each classroom may be described as twofold:

1. To establish and maintain safe and orderly conditions that are conducive to learning
