

STUDENT AWARDS

The board encourages the professional staff to maintain a set of criteria and procedures for presenting letters or other suitable awards to students for scholarship and distinguished service at school. In all cases, the relationship between the award and the relevant goal of the schools should be established.

The professional staff is authorized to review and approve or reject proposed trophies, prizes or other awards from nonschool donors.

All honors and awards presented to the students by the school shall serve as an incentive to enrich their school program and to stimulate their level of thinking and living. All honors and awards presented by the school shall be made on the merits of the students receiving them.
